

## Teacher in the clinical setting

### TEAM MEETING/HUDDLE

#### Learning objectives:

1. Communicate effectively with other health care providers.
2. Engage in collaborative decision making for patient care with other health care providers in a non-hierarchical manner.
3. Manage differences in opinions that may arise when working with health care providers to negotiate patient care plans.

#### Activities:

1. Invite learners to participate in a team meeting involving a case of a patient that they have seen.
2. Consider videotaping the meeting to use later as a reflective tool for learning.
3. Encourage the learner to present their case and ask them to actively engage other health care professionals to help develop the care plan.
