screening for cervical cancer

Recommendations on Screening for Cervical Cancer

The CFPC has endorsed the Canadian Task Force on Preventive Health Care’s evidence-based Guidelines, which have been updated to reflect recent advances in cervical cancer prevention and early detection. The new recommendations reinforce the current cervical cancer screening guidelines in Canada. How should we apply these guidelines in our practice? Read the story to find out.

Save the Date! Pharma/Industry-free! The BCCFP 25th Annual Family Medicine Conference
