- Editorial Board, British Journal of General Practice Open

A watercolor illustration of a wind farm. In the foreground, a large wind turbine is depicted with a blue tower and three blades. The background shows several other turbines receding into the distance. The sky is painted with vibrant colors of orange, yellow, and pink, suggesting a sunset or sunrise. The overall style is artistic and painterly.

“

# Mitigating Potential Bias

This program has not received financial or in-kind support.

The questions posed in today's webinar were developed by staff from the CFPC.

Recommendations are based on the on the evolving evidence and situation with the COVID-19 pandemic.

# Learning Objectives

*After this webinar presentation, the participant will be able to:*

1. Describe the clinical presentation and management of patients with COVID-19 infections who present to the Emergency Department.
2. Identify which patients should be considered for hospital admission
3. Describe the clinical approach to diagnosing and managing hospitalized patients with COVID-19
4. Identify clinical criteria that suggest a patient needs critical care consultation and possible admission
