President's Message

Here are my reflections on the last six months:

My first 90 days were easy. I started the job, quickly established my role and

deliverables. I remind myself at the end of some of the more difficult days (we all

have them) how fortunate I am to work with this group of passionate, dedicated and

great people!

The College is a complex organization, with several related and complementary

boards. New Board members are enthusiastic, and the existing Board members are

taking on new roles and responsibilities. I was able to set the key priorities for my

first 90 days in the position, which included:

1. Understanding the College's processes and how to engage in them

2. Building relationships with the College's diverse partners and stakeholders

3. Attending and participating in College events and meetings

4. Engaging with the College's staff and volunteers

5. Reviewing and updating the College's strategic plan

The second 90 days were more challenging. I had to build momentum and

overcome obstacles.

And there is summer!

And there is summer!

I remind myself at the end of some of the more difficult days (we all

have them) how fortunate I am to work with this group of passionate, dedicated and

great people!

Member engagement is a core enabler for everything we do, now and in the

future.

I have had to immerse myself - dive in - to certain areas where the College is

significantly engaged and where significant planning needs to take place eg, the

Medical Education project, and credentialing of enhanced skills areas.

One highlight for me was the Chapter Symposium at the CFPC National Office in

Vancouver, British Columbia on September 19 to 21, 2013.

I would like to congratulate the following recipients:

Family Physician of the Year: Dr. Steven MacNeill

Dr. Trina Stewart; Dr. Robert Kelley, PEI Family Physician of the Year; and Dr.

Andrew Wohglemut (2009-2011); and Past President Dr. Andre Celliers

Dr. Francine Lemire and Dr. Marie-Dominique Beaulieu congratulate newly installed WONCA

President, Professor Michael Kidd at the 20th WONCA World Conference in Prague. Dr. Kidd

is the newly-elected President of the North American Region of WONCA for the period 2013 to 2016.

Dr. Beaulieu also met with the leaders of the PEI College: Left to right - President Dr.

Andrew Wohglemut (2009-2011); and Past President Dr. Andre Celliers

Dr. Francine Lemire; Middle Row

The Nova Scotia College of Family Physicians Family Medicine Assembly

Continuing Medical Education topics were selected by

Dr. Bennion found that her interests in low-risk obstetrics and sports medicine were not

in a family planning clinic. By sharing the family medicine duties, they are able to work in

Praxis: Comprehensive dermatologic procedures pad

The Back to Sleep campaign to reduce Sudden Infant Death Syndrome (SIDS) has been

surface for ALL infants in the first six months of life and showcases that public

Health Agency of Canada releases updated HIV

HIV testing. New WHO guidelines state that infants, aged 0-2 months of age, should not

receive an HIV test at birth because the risk of deciding to breastfeed is too low.
