## Scope Note

This resource list was created to mark the centenary of the First World War, to recognize the contributions of Canadian physicians and surgeons to the war effort, and as an aid to researchers interested in the relationships between medicine, surgery and war. The list is mainly limited to items by or about the experiences of Canadian physicians and surgeons in the Great War, the diseases and injuries they encountered, and the effects of war on Canadian medicine and surgery. The resources listed range from those published at the time of the Great War until the present.

The resources are categorized into different formats: journal articles, books, online resources (websites, blogs, other web-based social media), and organizations and scholars. Wherever possible, links to freely available sources are included.

The books listed include in- and out-of-print books with links to WorldCat, where library holdings can easily be checked. The booklist is selective; in particular many more biographies have been written about Canadian physicians and surgeons who went to war.

Journal articles are a significant resource, and are particularly valuable since many journals have been digitized and are easily and fully searchable. The majority of articles listed are from *The Canadian Medical Association Journal*, and were written in wartime. They are available in full text at PubMed Central, the US National Library of Medicine journal archive, and links are provided.

The online resources listed are primarily specific to medicine and surgery, but include selected more general websites about war and Canadian society. A few items apply to other countries as well as Canada.

The list is selective rather than comprehensive, but efforts have been made to collect as many important resources as possible, in a variety of formats. Although time did not permit any subject analysis, we hope this list will provide a useful starting point for all those interested in the Great War. For additional information, please contact the list creators.

## Individual Scholars

### **Nina Bozzo**

*(Medical faculty at Western and its contribution to the First World War)*

PhD Candidate

Department of History

Western University

[nbozzo@uwo.ca](mailto:nbozzo@uwo.ca)

### **Jack Hyatt, PhD**

*(First World War, Canadian Hospitals during the First World War, last one hundred days of the war)*

Professor Emeritus,

Department of History

Western University

[hyatt@uwo.ca](mailto:hyatt@uwo.ca)

### **Melanie Morin-Pelletier**

*(First World War military nursing, medicine in the First World War)*

Assistant Historian

Canadian War Museum

[mmpellet@warmuseum.ca](mailto:mmpellet@warmuseum.ca)

### **Chris Ruddy, PhD**

*(History of public health, infectious diseases and biotechnology, hospitals, nursing, medical profession in Canada related to the First World War)*

Professional Medical Historian

[hhrs@healthheritageresearch.com](mailto:hhrs@healthheritageresearch.com)

### **Whitney Wood**

*(Women's bodies, pain, obstetric anesthesia and childbirth in English Canada during the First World War)*

PhD Candidate (ABD)

Department of History

Wilfrid Laurier University

[whitney.wood11@gmail.com](mailto:whitney.wood11@gmail.com)
